Emilio Rodriguez

emiliorodriguez@gmail.com | +34 611 142 444

Passionate JavaScript developer with a strong focus on React Native. I've been developing React Native apps since 2015 and working with JavaScript since 2008. My most outstanding achievements in my career as a developer are:

➔ Released dozens of successful apps with high-quality standards
➔ Published a book about React Native (React Native Blueprints)
➔ Be the sole maintainer of a 10,000 star github repo (lottie-react-native)
➔ Contributed to React Native's source code through their open source project
➔ Named one of the top 5% React and React Native contributors on StackOverflow

EXPERIENCE

Freelance Mobile Developer, June 2017 to present date
- Lead the migration of British Gas' native app to a new React Native app
- Build MyVolkswagen app in React Native, Typescript and Redux
